SUMMARY

React Native & Frontend Developer with 1+ year of professional experience building production-ready cross-platform mobile applications and responsive web interfaces. Experienced in React Native, TypeScript, React.js, REST API integration, reusable UI development, and responsive design. Hands-on experience developing production application features, integrating API-driven workflows, and collaborating with backend developers and designers in Agile environments. Experienced with Android build configuration, release builds, application signing, and Google Play Store deployment.

EXPERIENCE

React Native & Frontend Developer

June 2025 – Present

- Started as a React.js Frontend Developer and transitioned into React Native development for production mobile applications.
- Developed and maintained cross-platform mobile applications with a primary focus on Android using React Native, TypeScript, and React Hooks.
- Built reusable and responsive UI components based on Figma designs, ensuring consistent user experiences across different screen sizes and devices.
- Integrated REST APIs using Axios for authentication, payments, and dynamic application data.
- Implemented multi-screen application flows and navigation using React Navigation.
- Managed application state using Context API, React Hooks, and component state.
- Collaborated with backend developers and designers to integrate APIs and translate Figma designs into production-ready interfaces.
- Worked with Android Studio, Gradle, Android SDK, and release configurations for mobile application development and deployment.
- Generated Android release builds and worked with application signing and Google Play Store release workflows.

TECHNICAL SKILLS

Mobile Development	React Native, TypeScript, React Hooks, React Navigation, Android, Cross-Platform Development, Responsive UI
Frontend Development	React.js, JavaScript (ES6+), HTML5, CSS3, Reusable Components, Responsive Web Development
API & State Management	REST API Integration, Axios, Context API, API-driven UI, Async Data Handling, Error Handling
Development & Build Tools	Git, GitHub, Jira, Android Studio, Gradle, Google Play Console, Figma, Bruno, Postman, VS Code
Database	MongoDB, Firebase

EDUCATION

Patan College for Professional Studies

BSc. (Hons) Computer Science and Software Engineering

Completed

PROJECTS

Production Mobile Applications (React Native)	Developed and maintained multiple production mobile applications, including digital wallet, e-commerce, and healthcare applications, using React Native and TypeScript.
Pneumonia Detection Application (React.js)	Web Developed a responsive React.js web interface for uploading medical images and displaying pneumonia classification results.
Portfolio Website (React.js)	Designed and developed a responsive React.js portfolio to showcase projects and professional experience.
